The accompanying notes are an integral part of these condensed consolidated interim financial statements

1. Nature of operations and going concern

Homerun Resources Inc. ("the Company") was incorporated in British Columbia on October 21, 1980. The Company is a public company listed on the TSX Venture Exchange ("TSX-V") as mineral exploration issuer under the trading symbol "HMR". On August 16, 2021, the Company changed its name to Homerun Resources Inc. from Envirotek Remediation Inc. The principal business activity of the Company is mineral exploration and development. The corporate head office and registered records office of the Company is located at Suite 2110, 650 West Georgia Street, Vancouver, B.C., V6B 4N9.

These condensed consolidated interim financial statements have been prepared on the assumption that the Company will continue as a going concern which contemplates that the Company will be able to realize its assets and settle its liabilities in the normal course as they come due for the foreseeable future. As at June 30, 2023, the Company had no source of operating cash flows, working capital of $124,703 (December 31, 2022 - $1,003,652 deficit), and has an accumulated deficit of $27,815,613 (December 31, 2022 - $27,166,009), and the Company expects to incur further losses in the development of its business. These factors cast substantial doubt about the Company's ability to continue as a going concern. Management has estimated that the Company will require additional financing to meet its obligations for the fiscal year. Continued operations are dependent on the Company's ability to complete equity or debt financings. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue operations as a going concern. Such adjustments could be material.

2. Basis of preparation

a) Statement of compliance

These unaudited condensed interim financial statements have been prepared in accordance with IAS 34 – Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the IASB have been condensed or omitted and these unaudited condensed interim financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2022. These consolidated financial statements include the accounts of the Company and its wholly owned subsidiary AKA Ventures USA Inc. All inter-company transactions have been eliminated upon consolidation. The Board of Directors approved these consolidated financial statements on August 28, 2023.

b) Functional and presentation currency

These condensed consolidated interim financial statements are presented in Canadian dollars, which is the functional currency of the Company and its subsidiary.

c) Critical accounting estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities and contingency liabilities as at the date of the financial statements, and the reported amount of revenues and expenses during the reporting year. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

The key critical judgment and sources of estimation uncertainty that have a significant risk of causing material adjustment to the amounts recognized in the condensed consolidated interim financial statements are as follows:

<u>Going concern</u>

These consolidated financial statements have been prepared on the basis of the accounting principles applicable to a going concern, which assumes the Company's ability to continue in operation for the foreseeable future and to realize its assets and discharge its liabilities in the normal course of operations. There are several adverse conditions that cast substantial doubt upon the soundness of this assumption. Refer to note 1 for more details.

2. Basis of preparation (continued)

Key sources of estimation uncertainty:

Income taxes and recoverability of potential deferred tax assets

In assessing the probability of realizing income tax assets recognized, management makes estimates related to expectations of future taxable income, applicable tax planning opportunities, expected timing of reversals of existing temporary differences and the likelihood that tax positions taken will be sustained upon examination by applicable tax authorities.

Share-based payments

The Company has an equity-settled share-based scheme for directors, officers, employees and consultants. Management determines values for share-based payments using market-based valuation techniques. The fair value of the market-based and performance-based non-vested share awards are determined at the date of grant using generally accepted valuation techniques. Assumptions are made and judgment used in applying valuation techniques. These assumptions and judgments include estimating the future volatility of the stock price, expected dividend yield, future employee turnover rates and for stock-based compensation, future employee stock option exercise behaviors and corporate performance. Such judgments and assumptions are inherently uncertain, and any changes in these assumptions affect the fair value estimates.

Recent accounting pronouncements

The Company has reviewed the accounting standards or amendments to existing accounting standards that have been issued but have future effective dates and determined that these are either not applicable or are not expected to have a significant impact on the Company's financial statements.

3. Capital management

The Company classifies its share capital and contributed surplus as capital. When managing capital, the Company's objective is to ensure the Company continues as a going concern as well as to maintain adequate levels of funding to support its ongoing operations and development such that it can continue to provide optimal returns to shareholders and benefits for other stakeholders. The Board of Directors does not establish qualitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company is dependent upon external financing to fund its activities. In order to carry out its business activity and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is appropriate. There were no changes in the Company's approach to capital management during the year. The Company is not subject to any externally imposed capital requirements.

4. Financial instruments and financial risk management

a) Fair value

The fair value of financial instruments is the amount of consideration that would be agreed upon in an arm's length transaction between knowledgeable, willing parties who are under no compulsion to act. Fair values are determined by reference to quoted market prices, as appropriate, in the most advantageous market for that instrument to which the Company has immediate access. Where quoted market prices are not available, the Company uses the closing price of the most recent transaction for that instrument. In the absence of an active market, fair values are determined based on prevailing market rates for instruments with similar characteristics. The fair value of current financial instruments approximates their carrying values as long as they are short term in nature.

b) Fair value hierarchy

Financial instruments that are held at fair value are categorized based on a valuation hierarchy which is determined by the valuation methodology utilized:

4. Financial instruments and financial risk management (continued)

b) Fair value hierarchy (continued)

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company's financial instruments are carried at amortized cost with the exception of cash. Cash is measured using level 1 inputs.

There were no transfers between levels 1 and 2 during the period.

c) Financial risks

(i) Interest rate risk

The Company's interest rate risk arises primarily from the interest received on cash, which is invested on a short-term basis to enable adequate liquidity for payment of operational and capital expenditures. Therefore, interest rate risk is considered minimal.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company is exposed to foreign currency risk on fluctuations related to accounts payable that are denominated in US dollars. The Company does not use derivative instruments to reduce its exposure to foreign exchange risk. As at June 30, 2023, the Company had negligible financial assets or liabilities denominated in a foreign currency.

(iii) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's credit risk is primarily attributable to cash. The Company limits its exposure to credit risk on cash as these financial instruments are held with major Canadian and international banks, from which management believes the risk of loss to be remote. Credit risk is assessed as minimal.

(v) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with its financial liabilities. The Company manages liquidity risk by maintaining cash. The Company manages liquidity risk by maintaining cash. Liquidity requirements are managed based on expected cash flow to ensure there is capital to meet short-term and long-term obligations. As at June 30, 2023, the Company did not have sufficient cash on hand to pay its short-term creditors and does not generate cash from its operations. Accordingly, liquidity risk is considered high.

5. Prepaid expenses

	June 30, 2023	December 31, 2022
Prepaid – vendors	$ 69,923	$ 112,542

6. Exploration and evaluation assets

Tatooine Silica Project, Brisco, British Columbia Canada

On September 8, 2022, the Company (the optionee) entered into a Definitive Agreement with ClaimHunt Inc ("CHI"), the optionor. The Company has the option to purchase up to 100% interest in the Tatooine Silica Project in British Columbia, Canada.

Under the terms of the agreement, the Company can earn a 100% interest in the claims if the following cash payments, work expenditures and share issuances are met by the dates specified:

- The Company will pay $7,500 (paid) and issue 250,000 common shares (issued with a fair value of $32,500 of the Company to CHI on execution of the Definitive Agreement.
- The Company will issue a further 300,000 common shares of the Company to CHI on or before the 1st anniversary (September 8, 2023) of the Definitive Agreement.
- The Company will spend a cumulative $100,000 in work expenditures and issue a further 300,000 common shares of the Company to CHI on or before the 2nd anniversary (September 8, 2024) of the Definitive Agreement.
- The Company will issue a further 300,000 common shares of the Company to CHI on or before the 3rd anniversary (September 8, 2025) of the Definitive Agreement.
- The Company will spend a cumulative $200,000 in work expenditures and issue a further 300,000 common shares of the Company to CHI on or before the 4th anniversary (September 8, 2026) of the Definitive Agreement.

The continuity of the Company's acquisition costs at period ended June 30, 2022, and December 31, 2022 are as follows:

Acquisition Costs		**June 30, 2023**		**December 31, 2022**
Balance, opening	$	40,000	$	-
Cash payments		-		7,500
Option payments		-		32,500
Balance, ending	$	40,000	$	40,000

For six months ended June 30, 2023, The Company's exploration and evaluation expenditures recognized on the statements of comprehensive loss are as follows:

Exploration and evaluation expenditures		**June 30, 2023**		**June 30, 2022**
Project management fees	$	45,000	$	45,000

8. Share capital

Authorized: Unlimited common voting shares, without par value.

a. Share issuance - private placement

Six Months Ended June 30, 2023

On March 2, 2023, the Company completed a non-brokered private placement for gross proceeds of $751,400 by issuing 7,514,000 units at a price of $0.10 per unit. Each unit consists of one common share of the Company and one common share purchase warrant. Each warrant being exercisable at $0.20 per common share for a period of 24 months from the date of issuance. The warrants will be subject to the right of the company to accelerate the exercise period of the warrants if shares of the company trade at or above $0.50 for a period of 10 consecutive trading days.

Six Months Ended June 30, 2022

On January 25, 2022, the Company completed a non-brokered private placement for gross proceeds of $202,541 by issuing 2,025,406 units at a price of $0.10 per unit. Each unit consists of one common share of the Company and one common share purchase warrant. Each warrant being exercisable at $0.20 per common share for a period of 12 months from the date of issuance. The warrants are subject to the right of the company to accelerate the exercise period of the warrant if shares of the company trade at or above $0.50 for a period of 10 consecutive trading days. The Company incurred share issuance costs of $6,480 by issuing 64,800 finder's units (one common share and one common share purchase warrant) at a price of $0.10 per unit for 12 months.

On June 16, 2022, the Company completed the first tranche of a non-brokered private placement for gross proceeds of $300,000 by issuing 2,000,000 units at a price of $0.15 per unit. Each unit consists of one common share of the Company and one common share purchase warrant, with each warrant entitling the holder to acquire one additional common share of the Company at a price $0.25 per share for 12 months. The warrants are subject to the right of the company to accelerate the exercise period of the warrant if shares of the company trade at or above $0.50 for a period of 10 consecutive trading days.

8. Share capital (continued)

Share issuance – warrants exercise

Six Months Ended June 30, 2023
For the six months ended June 30, 2023, the Company issued:
- 2,025,406 common shares, pursuant to warrants exercised at a price of $0.20, for total proceeds of $405,081.
- 2,000,000 common shares, pursuant to warrants exercised at a price of $0.25, for total proceeds of $500,000.

Six Months Ended June 30, 2022
For the six months ended June 30, 2022, the Company issued:
- 2,633,820 common shares, pursuant to warrants exercised at a price of $0.15, for total proceeds of $395,073.

Share issuance – stock options exercise

Six Months Ended June 30, 2023
For the six months ended June 30, 2023, the Company issued:
- 200,000 common shares, pursuant to stock options exercised at a price of $0.10, for total proceeds of $20,000.

b. Stock options

The Company has adopted an incentive stock option plan under the rules of the TSX-V pursuant to which it is authorized to grant options, as amended, to executive officers, directors, employees and consultants.

Six Months Ended June 30, 2023
On March 13, 2023, the Company granted 500,000 stock options, of which, 25% vested upon grant date, and thereafter vest 25% every 6 months. These options are exercisable for up to five years at a price of $0.20 per share. The Company calculated its stock-based compensation by the Black-Scholes Option Pricing Model using the following assumptions: risk free interest rate 3.37%, volatility of 144.86%, annual rate of dividend of 0% and an expected life of the option of 5 years. The total fair value of the options granted is $85,419. For the six months ended June 30, 2023, the total fair value of stock-based compensation recorded is $44,597 due to vesting provisions.

Six Months Ended June 30, 2022
On June 15, 2022, the Company granted 1,950,000 stock options. These options are exercisable for up to five years at a price of $0.20 per share. The Company recognized a stock-based compensation of $292,500 determined by the Black-Scholes option pricing model using the following assumptions: risk free interest rate 3.37%, volatility of 113.14%, annual rate of dividend of 0% and an expected life of the option of 5 years.

The Continuity of the Company's outstanding options is as below:

	Number of Options Outstanding	Weighted Average Exercise Price
Balance, December 31, 2021	3,500,000	$0.10
Granted	1,950,000	$0.20
Balance, December 31, 2022	5,450,000	$0.14
Granted	500,000	$0.20
Exercised	(200,000)	$0.10
Balance, June 30, 2023	5,750,000	$0.14

8. Share capital (continued)

b. Stock options (continued)

At June 30, 2023, the following stock options were outstanding:

Expiry Date	Weighted Average Exercise Price	Number of Options Outstanding	Number of Options Exercisable	Weighted Average Remaining Years
September 14, 2026	$0.10	3,300,000	3,300,000	3.21
June 15, 2027	$0.20	1,950,000	1,462,500	3.96
March 13, 2028	$0.20	500,000	125,000	4.71
	$0.14	5,750,000	4,887,500	3.60

c. Share purchase warrants

Six Months Ended June 30, 2023
For the six months ended June 30, 2023, the Company issued:
- 7,514,000 warrants exercisable at a price of $0.20 issued, with an expiry date on March 2, 2025 (Note 8a)

Six Months Ended June 30, 2022
For the six months ended June 30, 2022, the Company issued:
- 2,025,406 warrants at a price of $0.20, with an expiry date on January 25, 2023 (Note 8a).
- 2,000,000 warrants at a price of $0.25, with an expiry date on June 16, 2023 (Note 8a).

The continuity of the Company's outstanding warrants is as follows:

	Number	Weighted Average Price
Balance, December 31, 2021	4,058,820	$0.18
Issued	4,085,406	$0.23
Exercised	(2,633,820)	$0.15
Expired	(1,425,000)	$0.22
Balance, December 31, 2022	4,085,406	$0.23
Issued	7,514,000	$0.20
Exercised	(2,025,406)	$0.20
Exercised	(2,000,000)	$0.25
Balance, June 30, 2023	7,574,000	$0.20

At June 30, 2023, the following warrants were outstanding:

Expiry Date	Weighted Average Exercise price	Number of warrants outstanding	Weighted Average Remaining Years
August 16, 2023	$ 0.25	60,000	0.38
March 2, 2025	$ 0.20	7,514,000	1.92
	$ 0.20	7,574,000	1.66

d. Broker warrants

Six Months Ended June 30, 2022
For six months ended June 30, 2022, the Company issued 64,800 broker warrants at a price of $0.20 issued (Note 8a).

The continuity of the Company's outstanding warrants is as follows:

8. Share capital (continued)

d. Broker warrants (continued)

	Number	Weighted Average Price
Balance, at December 31, 2021	20,000	$0.08
Issued	64,800	$ 0.20
Expired	(20,000)	$ 0.20
Balance, at December 31, 2022	64,800	$ 0.20
Expired	(64,800)	$ 0.20
Balance, at June 30, 2023	-	-

At June 30, 2023, no broker warrants were outstanding.

		June 30, 2023		December 31, 2022
Trade payables	**$**	**627,711**	$	913,830
Accrued liabilities		**99,588**		138,088
Total	**$**	**727,299**	$	1,051,918

11. Subsequent event

a) On July 22, 2023, the Company signed a material supply agreement with a vendor detailing the operational terms regarding the supply of high-purity silica sand sourced from the vendor's district-scale, fully permitted project in Bahia, Brazil. Under the agreement, the purchase price has been set at US$20.00 per tonne, net of the Company's obligation to cover recoverable costs and applicable taxes. The applicable taxes in Brazil are dependent on customer jurisdiction both domestically and for international shipments. Recoverable costs are dependent on whether the mode of operation is service contractor or internal capital equipment or equipment lease.

The Vendor has provided extensive third-party testing that verifies and demonstrates that the raw silica sand grade averages +99.8% SiO_2 and contains very low levels of impurities. The Company will initiate further testing on the reduction of residual impurities after standard processing, through a combination of thermal application and acid leaching, to upgrade the current raw silica sand to higher grade HPQ.

b) On July 26, 2023, the Company executed a confidentiality agreement with Companhia Baiana de Pesquisa Mineral (CBPM) with the intent to complete due diligence and to negotiate the proposal terms for the Company to explore and develop additional HPQ silica resources controlled by CBPM in Belmonte, Bahia, Brazil, near the Port of Ilheus.

c) The Company ha received $15,000 from the exercise of 60,000 warrants and $10,000 from the exercise of 50,000 warrants.
