

**HOMERUN RESOURCES INC.**  
**(formerly ENVIROTEK REMEDIATION INC.)**  
**Management's Discussion & Analysis**

For the Nine Months Ended September 30, 2022 and 2021

---

This management's discussion and analysis of Homerun Resources Inc. (formerly Envirotek Remediation Inc.) (the "Company" or "Homerun Resources") contains analysis of the Company's operational and financial results for the nine months ended September 30, 2022 and 2021. The following should be read in conjunction with the Company's interim condensed consolidated financial statements for the nine months ended September 30, 2022 and audited consolidated financial statements for the year ended December 31, 2021. All figures are in Canadian dollars unless otherwise stated.

**DATE OF REPORT**

November 28, 2022

**JURISDICTION OF INCORPORATION AND CORPORATE NAME**

Homerun Resources Inc. (formerly Envirotek Remediation Inc.) ("the Company") was incorporated in British Columbia on October 21, 1980 and is a public company listed on the TSX Venture Exchange ("TSX-V"). The principal business activity of the Company was environmental remediation but intends to change its focus to mineral exploration. The corporate head office of the Company is located at Suite 2110, 650 West Georgia Street, Vancouver, B.C., V6B 4N9.

**CORPORATE HIGHLIGHTS**

*Highlights of the Company's activities for nine months ended September 30, 2022, and up to the date of this report.*

On January 25, 2022, the Company completed a non-brokered private placement financing for gross proceeds of \$202,541. The Company issued 2,025,460 units, with each unit consisting of one common share and one common share purchase warrant. Each warrant being exercisable at \$0.20 for 12 months from the date of issue; and the Company has the right to accelerate the exercise period to 30 days if the shares of the Company close at or about \$0.50 for 10 consecutive trading days. The Company issued 64,800 finder's units on the same terms as the private placement units.

On February 2, 2022, the Company announced it has increased its Homathko Project land package by an additional 17,700 hectares. The project now covers a total of 30,970 hectares. Also, the Company completed an airborne magnetic survey on the Homathko project.

On February 8, 2022, the Company announced it has signed a letter of intent for the option to purchase up to a 100% interest in the Ze Manoel project in Goias state, Brazil.

On May 12, 2022, the Company's shares resumed trading on TSX Venture Exchange as the company met the listing requirements for a Tier 2 company. The Company's listing was transferred from the NEX to TSX Venture Exchange, and the trading symbol for the Company changed from HMR.H to HMR. The Company is classified as a mineral exploration company on TSX Venture Exchange.

On June 15, 2022, the Company granted 1,950,000 stock options. These options are exercisable for up to five years at a price of \$0.20 per share.

On June 22, 2022, the Company entered into an agreement with Zimtu Capital Corp. ("Zimtu"), a public investment issuer. Zimtu will provide the Company with its ZimtuADVANTAGE program (lead generation campaign, social media, YouTube, and video news release, etc) and will receive \$12,500 per month for a period of 12 months.

On August 16, 2022, the Company completed the first tranche of a non-brokered private placement for gross proceeds of \$309,000 by issuing 2,060,000 units at a price of \$0.15 per unit. Each unit consists of one common share of the Company and one common share purchase warrant, with each warrant entitling the holder to acquire one additional common share of the Company at a price \$0.25 per share for 12 months. The warrants are subject to the right of the company to accelerate

**HOMERUN RESOURCES INC.**

For the Nine Months Ended September 30, 2022 and 2021

---

the exercise period of the warrant if shares of the company trade at or above \$0.50 for a period of 10 consecutive trading days.

On September 8, 2022, the Company executed a definitive agreement for an option to purchase up to 100% interest in the 3,019-hectare Tatooine Silica Project in British Columbia, Canada.

On November 14, 2022, the Company amended its purchase option agreement for the purchase, in stages, of up to a 100% interest in the Ze Manuuel (ZM) Project in Brazil. Under the purchase option agreement, dated April 28, 20022, the Company had the option to reimburse the vendor for certain historical expense incurred by the vendor and issue, in stages, a total of 12 million common shares over a four year. The Company and the vendor have amended the purchase option agreement to expedite Homerun's ownership of the ZM Project by changing the payment period for the 12 million common shares. The common shares will now issued in their entirety upon the TSX Venture Exchange's approval of the purchase option.

During the nine months ended September 30, 2022, 2,633,820 warrants were exercised at a price of \$0.15 per warrant for proceeds of \$395,073, and 425,000 warrants at a price of \$0.15 per warrant, expired.

#### **OUTLOOK**

The Company will need additional funding for its exploration, corporate and overhead expenses in near future through either equity or debt financing. Many factors influence the Company's ability to raise funds, including the health of the capital market and the Company's track record. There is no guarantee that the Company will be able to secure additional financings in the future at terms that are favorable.

#### **MINERAL EXPLORATION PROJECTS**

##### **a. Homathko gold project option**

The company has an option for the right to acquire a 100-per-cent interest in the Homathko gold project, located in the Caribou regional district of British Columbia. The Company expanded the project size land position by 30,770 hectares via staking, bringing the total land position to 30,970 hectares.

Mineralization on the property was first identified by Falconbridge Ltd. in 1966, which reported grab and trench sampling returning up to 384 grams per tonne gold. Work completed by Transition Metals Corp. identified a larger, high-grade lode gold system traceable at surface along 1.5 kilometres of strike length. According to Transition, the mineralization is hosted within quartz-carbonate veining developed within and near the margins of a shear-bounded, altered quartz-feldspar porphyry sill. Based on field observations, geologists from Transition have interpreted that the environment for mineralization on the property appears consistent with that of a traditional mesothermal lode gold deposit, which bears many similarities to similar deposits occurring elsewhere in the Stikine belt.

Homathko project highlights:

- Surface and trench grab samples returning up to 384 g/t gold in 1966;
- Grab samples returning up to 64.5 g/t gold in 1989;
- Grab samples returning up to 87.5 g/t gold and 45 g/t silver in 2010 by Transition Metals;
- To date, the Homathko project has never been drill tested.

*Cautionary note: the reader is cautioned that rock grab samples are selective by nature and may not represent the true grade or style of mineralization across the property.*

Under the terms of the option agreement, the company can earn a 100-per-cent interest in the claims by making such payments necessary to keep the property in good standing and by completing the following:

- Making the following cash payments and issuing the following common shares to Transition Metals:

**HOMERUN RESOURCES INC.**  
**(formerly ENVIROTEK REMEDIATION INC.)**  
**Management's Discussion & Analysis**

For the Nine Months Ended September 30, 2022 and 2021

---

- A \$10,000 cash payment on or before Dec. 31, 2020 (paid);
  - 700,000 common shares upon TSX Venture Exchange acceptance of the option agreement and no later than June 30, 2021 (issued);
  - \$40,000 in common shares at a 30-day volume-weighted average price on or before the first anniversary of the option agreement (issued 470,588 common shares);
  - \$50,000 in common shares at a 30-day volume-weighted average price on or before the second anniversary of the option agreement;
  - \$50,000 in common shares at a 30-day volume-weighted average price on or before the third anniversary of the option agreement.
- Completing the following work expenditures on the property:
    - Cumulative \$100,000 by June 30, 2021 (completed);
    - Cumulative \$550,000 by Dec. 31, 2022.

The optionor will retain a 1-percent net smelter return royalty on all mineral production, 0.5 percent of which can be purchased by the company for \$1-million. The property is also subject to a pre-existing 1-per-cent royalty in favour of a third party.

On September 12, 2022, the Company terminated the option agreement, the Company expensed \$145,398 in acquisition costs related to the Homathko property.

**b. Tatooine Silica Project, Brisco, BC, Canada**

On September 8, 2022, the Company (the optionee) has executed an Definitive Agreement with Claimhunt Inc ("CHI"), the optionor. The Company has options to purchase up to 100% interest in the 3,019-hectare Tatooine Silica Project in British Columbia, Canada. The Tatooine Silica Project covers an area of approximately 3,019 hectares, located directly adjacent to the community of Brisco, British Columbia and BC Highway 95, and approximately 65 kilometres southeast of Golden, BC. To complete the Purchase Option, HMR will make a cash payment of \$7,500, make work expenditures of \$200,000 and issue 1,450,000 common shares of HMR to CHI, as per the following and subject to the terms of the signed Definitive Agreement:

- a. HMR will pay \$7,500 (paid) and issue 250,000 (issued) common shares of HMR to CHI on execution of the Definitive Agreement.
- b. HMR will issue a further 300,000 common shares of HMR to CHI on or before the 1st anniversary of the Definitive Agreement.
- c. HMR will spend a cumulative \$100,000 in work expenditures and issue a further 300,000 common shares of HMR to CHI on or before the 2nd anniversary of the Definitive Agreement.
- d. HMR will issue a further 300,000 common shares of HMR to CHI on or before the 3rd anniversary of the Definitive Agreement.
- e. HMR will spend a cumulative \$200,000 in work expenditures and issue a further 300,000 common shares of HMR to CHI on or before the 4th anniversary of the Definitive Agreement.
- f. The common shares issued to CHI by HMR under the terms of the Purchase Option, will be subject to a 4-month statutory hold period which will begin on the date of issuance of the common shares.

**HOMERUN RESOURCES INC.**  
**(formerly ENVIROTEK REMEDIATION INC.)**  
**Management's Discussion & Analysis**

For the Nine Months Ended September 30, 2022 and 2021

---

g. Any common shares of HMR issued prior to the dates above as part of the Purchase Option will be subject to a 4-month statutory hold period which will begin on the date of issuance of the common shares.

**c. Ze Manoel Project, Goias State, Brazil**

On February 8, 2022, the Company entered a letter of intent ("LOI") for the option to purchase up to a 100% interest in the Ze Manoel project in Goias state, Brazil by making a cash payment of US\$250,000 and issuing 12 million common shares to the vendor over a period of three years. The non-binding LOI is intended to document the general terms of a purchase option agreement between the company and Beko Invest Ltd. For the three months ended, the Company incurred \$21,390 in project review costs (2021 - \$Nil).

The project covers an area of approximately 7,587 acres in the western portion of the Goias state within the Arenopolis municipality of Brazil, about 290 kilometres from the state capital, Goiania, and approximately 60 kilometres east of the city Ipora. Access to the property is through well-maintained state roads, which cross most of the southern segment of the mineral concession. Access throughout the property is facilitated by unpaved secondary roads and trails.

The Ze Manoel project lies within the Tocantins structural province in the Brasilia fold belt, inserted in the Arenopolis magmatic arc, located within the greater Goias magmatic arc (of Neoproterozoic age). The property has significant metallogenic potential, justified by the occurrences of intrusion-related and epithermal gold deposits of Bacilandia; the Bom Jardim de Goias copper and gold deposits; nickel, copper, cobalt and PGE (platinum group element) deposits and vermiculite deposits (related to layered mafic-ultramafic bodies); occurrences of tin in anorogenic granites; occurrences of cretaceous diamondiferous kimberlitic intrusions, carbonatites and kamafugites from the Goias Alkaline province (GAP); in addition to various industrial materials used for civil and agricultural inputs.

A recent research study on the property comprises the majority of data available on the project and includes ground-based geophysics, stream sediment sampling, trenching and lithochemical outcrop sampling.

**Target zones**

The project consists of four major target zones: Ze Manoel, PAV, Dipolo and Alkaline. A recent in-depth research report on the property determined that it is situated in a favourable geological context for the formation of polymetallic mineral deposits. The geochemical results obtained corroborate the economic potential for copper, gold, iron and diamond, with copper contents above 1 per cent, gold above one gram per tonne and Fe<sub>2</sub>O<sub>3</sub> (iron oxide) above 80 per cent.

The primary target, Ze Manoel, yielded anomalous values of copper (1,325 to 11,410 parts per million), gold (five to 400 parts per billion), Fe<sub>2</sub>O<sub>3</sub> (11.7 per cent to 83.2 per cent) and up to 3.85 parts per million of silver in magnetitic rock samples. The anomalous concentrations for these elements were from two main locations -- one in the central portion of the target, in the contact of mylonite and diorite, where a breccia was found; and one in the northeast region of the target, with elevated cobalt and Fe<sub>2</sub>O<sub>3</sub> content. Trenching identified anomalous copper values.

Sediment sampling at the Dipolo target, named as such for the presence of four north-south-oriented dipoles identified from airborne geophysics, yielded three positive results for gold out of approximately 17 samples, with one sample yielding 1.678 grams per tonne gold. The sample is located east and downstream of the dipoles. The near-term plan at Dipolo is a comprehensive mapping program.

The Alkaline target is defined by the presence of an alkaline intrusion mapped by the Brazilian Geological Survey. Twelve current sediment samples were collected with three positive results for gold, up to 0.28 gram per tonne gold, which is located downstream of the alkaline rock body.

For the Nine Months Ended September 30, 2022 and 2021

---

#### Transaction details

The LOI is intended to document the general terms of a purchase option agreement between the company and Beko Invest Ltd. concerning the exclusive terms for the purchase of the Ze Manoel project, which is owned by Beko through its 100-per-cent ownership of 3S Ltd. The proposed terms and conditions of the purchase option, which are entirely subject to the terms and conditions to be set forth in the definitive agreement, are as follows:

- In order to initiate the exercise of the purchase option, Homerun Resources will advance cash payments of \$250,000 (U.S.) to cover the historical expenditures made by the vendor on the Ze Manoel project.
- Homerun Resources will have the option of making common share payments totaling 12 million common shares to the vendor for a 100-per-cent direct ownership in the Ze Manoel project as follows:
  - Homerun Resources will acquire an initial 25-per-cent interest in the Ze Manoel project upon the issuance of three million common shares of Homerun Resources to the vendor issued upon the receipt of TSX Venture Exchange approval of the purchase option.
  - Homerun Resources will acquire an additional 25-per-cent interest (cumulative 50 per cent) in the Ze Manoel project upon the issuance of an additional three million common shares of Homerun Resources to the vendor at any time before the first anniversary of the TSX-V approval of the purchase option.
  - Homerun Resources will acquire an additional 25-per-cent interest (cumulative 75 per cent) in the Ze Manoel project upon the issuance of an additional three million common shares of Homerun Resources to the vendor at any time before the second anniversary of the TSX-V approval of the purchase option.
  - Homerun Resources will acquire a final 25-per-cent interest (cumulative 100 per cent) in the Ze Manoel project upon the issuance of an additional three million common shares of Homerun Resources to the vendor at any time before the third anniversary of the TSX-V approval of the purchase option.

On November 14, 2022, the Company and vendor amended the option agreement where the issuance of 12-million common shares of the Company be issued in their entirety upon the TSX Venture Exchange approval of the purchase option agreement.

#### INVESTOR RELATIONS

On June 22, 2022, the Company entered into an agreement with Zimtu Capital Corp, a public investment issuer. Zimtu will provide the Company with its ZimtuADVANTAGE program (lead generation campaign, social media, YouTube, and video news release, etc) and will receive \$12,500 per month for a period of 12 months.

#### RESULTS OF OPERATIONS

##### For the Three Months Ended September 30, 2022 and 2021

For the three months ended September 30, 2022, the Company recorded net comprehensive loss of \$383,746 (2021 - \$387,516). During the quarter the Company wrote-off \$145,398 of acquisition costs relating to the Homathko project. Major expenditures during the quarter were:

- Consulting and management fees \$75,000 (2021 - \$70,500);
- Exploration and evaluation expenses \$29,529 (2021 - \$30,500);
- Investor relations \$75,000 (2021 - \$Nil)
- Office and miscellaneous \$31,307 (2021 - \$30,035);
- Professional fees \$13,230 (2021 - \$4,100);
- Transfer and filing fees \$7,336 (2021 - \$2,383);

**HOMERUN RESOURCES INC.**  
**(formerly ENVIROTEK REMEDIATION INC.)**  
**Management's Discussion & Analysis**

For the Nine Months Ended September 30, 2022 and 2021

- Share-based compensation \$Nil (2021 - \$247,000)
- Impairment of E&E assets \$145,398 (2021 - \$Nil)

**For the Nine Months Ended September 30, 2022 and 2021**

For the nine months ended September 30, 2022, the Company recorded net comprehensive loss of \$1,073,011 (2021 - \$738,821). Major expenditures during the quarter were:

- Consulting and management fees \$226,500 (2021 - \$211,500);
- Investor relations \$75,000 (2021 - \$Nil)
- Exploration and evaluation expenses \$109,705 (2021 - \$156,610);
- Office and miscellaneous \$97,098 (2021 - \$90,129);
- Professional fees \$83,198 (2021 - \$17,320);
- Transfer and filing fees \$34,953 (2021 - \$6,326);
- Share-based compensation \$292,500 (2021 - \$247,000)
- Impairment of E&E assets \$145,398 (2021 - \$Nil)

The loss during the nine-month period includes a non-cash expense item of \$292,500 due to the grant of incentive stock options and the write-off of \$145,398 in acquisition costs relating to the Homathko project. The Company incurred higher expenses compared to the prior period in 2021 due to: due diligence, legal and regulatory costs relating to the acquisition and Exchange review of the Ze Manoel and Tatooine Silica projects. The Company also incurred costs for an annual general meeting and regulatory filings.

**Summary of Quarterly Results**

Results for the eight most recent quarters are as follows:

	Sep. 30, 2022	Jun. 30, 2022	Mar. 31, 2022	Dec. 31, 2021
Expenses	\$ 238,348	\$ 525,380	\$ 163,885	\$ 75,447

**Management's Discussion & Analysis**

For the Nine Months Ended September 30, 2022 and 2021

to the acquisition of Ze Manoel and moving the Company's shares from the NEX to the TSXV.

**LIQUIDITY AND CAPITAL RESOURCES**

	September 30, 2022	December 31, 2021
<b>Cash</b>	\$ 9,967	\$ 99,547
<b>GST receivable</b>	7,967	3,327
<b>Exploration and evaluation assets</b>	46,058	145,398
<b>Current liabilities</b>	1,014,277	1,024,783
<b>Shareholders' deficiency</b>	(725,785)	(776,511)
<b>Working capital deficiency</b>	(771,843)	(921,909)

The Company has historically relied upon equity financings to satisfy its capital requirements and will continue to depend heavily upon the capital markets to finance its activities. There can be no assurance the Company will be able to obtain the required financing in the future on terms acceptable to the Company. The Company anticipates it will need additional capital in the future to finance ongoing exploration of its properties, which will be derived from the exercise of stock options and warrants, and/or private placements. The Company may also seek short-term loans from directors of the Company.

As at September 30, 2022, the Company had cash of \$9,967 (December 31, 2021 - \$99,547) and negative working capital of \$771,843 (December 31, 2021 - \$921,909). Cash used in operating activities was \$874,759. Cash used in investing activities was \$21,058. Cash received in financing activities totaled \$806,237. Significant working capital components include cash in current or interest-bearing accounts, accounts payable, and demand loans payable.

**Capital stock**

The Company's share capital consists of unlimited common voting shares, without par value.

During the nine months ended September 30, 2022:

- On January 25, 2022, the Company completed a non-brokered private placement for gross proceeds of \$202,541 by issuing 2,025,406 units at a price of \$0.10 per unit. Each unit consists of one common share of the Company and one common share purchase warrant, with each warrant entitling the holder to acquire one additional common share of the Company at a price \$0.20 per share for 12 months. The Company incurred share issuance costs of \$6,480 by issuing 64,800 finder's units (one common share and one common share purchase warrant) at a price of \$0.10 per unit.
- On August 16, 2022, the Company completed the first tranche of a non-brokered private placement for gross proceeds of \$309,000 by issuing 2,090,000 units at a price of \$0.15 per unit. Each unit consists of one common share of the Company and one common share purchase warrant, with each warrant entitling the holder to acquire one additional common share of the Company at a price \$0.25 per share for 12 months. The warrants are subject to the right of the company to accelerate the exercise period of the warrant if shares of the company trade at or above \$0.50 for a period of 10 consecutive trading days.
- On September 9, 2022, the Company issued 250,000 common shares with a fair value of \$25,000 for option payment (Tatooine project).
- 2,633,820 common shares were issued pursuant to warrants exercised at a price of \$0.15 for total proceeds of \$395,073.

As at September 30, 2022 and the date of this report, the Company had 35,765,233 common shares issued and outstanding

**Management's Discussion & Analysis**

For the Nine Months Ended September 30, 2022 and 2021

(December 31, 2021 – 28,731,207).

**Stock options**

The Company has adopted an incentive stock option plan under the rules of the TSX-V pursuant to which it is authorized to grant options, as amended, to executive officers, directors, employees and consultants. On June 15, 2022, the Company granted 1,950,000 stock options. These options are exercisable for up to five years at a price of \$0.20 per share.

The Continuity of the Company's outstanding options is as below:

	Number of Options Outstanding	Weighted Average Exercise Price
Balance, December 31, 2021	3,500,000	\$0.10
Granted	1,950,000	\$0.20
Balance, September 30, 2022	5,450,000	\$0.14

As at September 30, 2022, the following stock options were outstanding:

Expiry Date	Weighted Average Exercise price	Number of options outstanding	Weighted Average Remaining Years
September 14, 2026	\$ 0.10	3,500,000	3.81
June 15, 2027	\$ 0.15	1,950,000	4.56

As at the date of this report, the following stock options were outstanding:

Expiry Date	Weighted Average Exercise price	Number of options outstanding	Weighted Average Remaining Years
September 14, 2026	\$ 0.10	3,500,000	3.64
June 15, 2027	\$ 0.15	1,950,000	4.39
November 25, 2027	\$ 0.20	500,000	5.00

**Warrants**

There are 4,085,406 warrants issued during the nine months ended September 30, 2022. The continuity of the Company's outstanding warrants is as follows:

	Number	Weighted Average Price
Number outstanding at December 31, 2021	4,058,820	\$0.18
Issued	4,085,406	\$ 0.22
Exercised	(2,633,820)	\$ 0.15
Expired	(425,000)	\$ 0.15
Number outstanding at September 30, 2022	5,085,406	\$ 0.23
Expired	(1,000,000)	\$ 0.25
Number outstanding at the date of this report	4,085,406	\$0.23

For the Nine Months Ended September 30, 2022 and 2021

At September 30, 2022, the following warrants were outstanding:

Expiry Date	Weighted Average Exercise price	Number of warrants outstanding	Weighted Average Remaining Years
November 19, 2022	\$ 0.25	1,000,000	0.11
January 25, 2023	\$ 0.20	2,025,406	0.32
June 15, 2023	\$ 0.20	2,000,000	0.71
August 16, 2023	\$ 0.20	60,000	0.88
	\$ 0.23	5,085,406	0.44

At the date of this report, the following warrants were outstanding:

Expiry Date	Weighted Average Exercise price	Number of warrants outstanding	Weighted Average Remaining Years
January 25, 2023	\$ 0.20	2,025,406	0.17
June 15, 2023	\$ 0.20	2,000,000	0.56
August 17, 2023	\$ 0.25	60,000	0.72
	\$ 0.23	4,085,406	0.30

**Broker Warrants**

During the nine months ended September 30, 2022, the Company issued 64,800 broker warrants. Each broker warrant allows the holder to acquire one common share at a price of \$0.20 for the period of 12 months. The continuity of the Company's outstanding broker warrants is as follows:

	Number	Weighted Average Price
Number outstanding at December 31, 2021	20,000	\$0.25
Issued	64,800	\$ 0.20
Number outstanding at September 30, 2022	84,800	\$ 0.21
Expired	(20,000)	\$ 0.25
Number outstanding at date of this report	64,800	\$ 0.20

At September 30, 2022, the following broker warrants were outstanding:

Expiry Date	Weighted Average Exercise price	Number of warrants outstanding	Weighted Average Remaining Years
November 19, 2022	\$ 0.25	20,000	0.11
January 25, 2023	\$ 0.20	64,800	0.32
	\$ 0.36	84,800	0.27

At the date of this report, the following broker warrants were outstanding:

Expiry Date	Weighted Average Exercise price	Number of warrants outstanding	Weighted Average Remaining Years
January 25, 2023	\$ 0.20	64,800	0.32
	\$ 0.36	84,800	0.27

As at the date of this report, the Company has 35,765,233 common shares, 5,950,000 incentive stock options, 4,085,406 share purchase warrants and 64,800 broker warrants outstanding. If all of the stock options, warrants, and broker warrants were exercised the Company would have 45,865,439 common shares issued and outstanding.

to be issued in their entirety upon the TSX Venture Exchange approval of the purchase option agreement.

- b. On November 19, 2022, 1,000,000 warrants expired at a price of \$0.25 and 20,000 broker warrants expired at a price of \$0.25 without exercising.
- c. On November 24, 2022, the Company announced a non-brokered private placement financing for up to \$2-million. The financing will consist of up to 20 million units at \$0.10 per unit, each unit consisting of one common share of the Company and one common share purchase warrant. Each warrant is exercisable for an additional common share at an exercise price of \$0.20 for 12 months. The warrants will be subject to the right of the company to accelerate the exercise of the warrants if the shares of the company trade at or above \$0.50 for a period of 10 consecutive trading days. Finders' fees in accordance with TSX Venture Exchange policies may apply to the financing. Proceeds raised from the financing will be used for project payments, exploration and working capital expenditures.

The Company will be relying on NI 45-106 s. 5A.2 and a Form 45-106F19 offering document related to this offering which has been posted under the issuer's profile at [www.sedar.com](http://www.sedar.com) and at <https://www.homerunres.com>.

- d. On November 25, 2022, the Company granted 500,000 stock options to consultants of the company. The options have an exercise price

#### **SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS**

The preparation of the condensed interim consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed interim financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. The consolidated financial statements include estimates, which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the condensed consolidated interim financial statements and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised, and the revision affects both current and future periods.

Information about critical judgments and estimates in applying accounting policies that have most significant effect on the amounts recognized in the consolidated financial statements are as follows:

- Assessment of the Company's ability to continue as a going concern;
- Impairment of long-lived assets;
- Recoverability and measurement of deferred tax assets; and
- Measurement of share-based payments.

#### **NEW ACCOUNTING STANDARDS**

For information on the Company's accounting policies and new accounting pronouncements, please refer to our disclosure in our unaudited condensed consolidated financial statements for the nine months ended September 30, 2022.

#### **CAPITAL MANAGEMENT AND FINANCIAL RISK FACTORS**

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support ongoing operations. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of management to sustain future development of the business. In order to carry out its business activity and pay for administrative costs, the Company will need to raise additional working capital.

Management reviews its capital management approach on an on-going basis and believes that this approach, given the relative size of the Company, is reasonable.

**HOMERUN RESOURCES INC.**  
**(formerly ENVIROTEK REMEDIATION INC.)**  
**Management's Discussion & Analysis**

For the Nine Months Ended September 30, 2022 and 2021

---

There were no changes in the Company's approach to capital management during period or during the period. Neither the Company nor its subsidiary is subject to externally imposed capital requirements.

Details of the Company's financial instruments, management's assessment of their related risks and details of management of those risks are as follows:

**Financial risk management**

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's financial instruments consist of cash, accounts payable, and loans payable.

The Company maintains cash deposits with financial institutions, which, from time to time, may exceed federally insured limits. The Company has not experienced any losses and believes it is not exposed to any significant credit risk from cash.

**Financial instrument risk exposure**

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board approves and monitors the risk management processes. The Company does not have any asset backed commercial paper.

**Credit risk**

The Company's credit risk is primarily attributable to cash. The Company limits its exposure to credit risk on cash as these financial instruments are held with major Canadian and international banks, from which management believes the risk of loss to be remote.

**Liquidity risk**

The Company manages liquidity risk by maintaining cash. Liquidity requirements are managed based on expected cash flow to ensure there is capital to meet short term and long-term obligations. As at September 30, 2022, the Company did not have sufficient cash on hand to pay its short-term creditors and does not generate cash from its operations. Accordingly, liquidity risk is considered high.

**Market risk**

The market risk exposure to which the Company is exposed is interest rate risk. The Company's bank account earns interest income at variable rates. The Company's future interest income is exposed to short-term rate fluctuations. This is not a significant risk to the Company.

**Foreign exchange risk**

The Company is exposed to foreign currency risk on fluctuations related to cash, demand loan payable, accounts payable and accrued liabilities that are denominated in US dollars. The Company does not use derivative instruments to reduce its exposure to foreign exchange risk. A 10% change in the value of the US dollar against the Canadian dollar would have an impact of \$11,653 on the Company's comprehensive loss.

**OTHER RISK FACTORS**

The Company's success depends upon a number of factors, many of which are beyond the Company's control. Typical risk factors and uncertainties include the current world economic recovery, world conflict, natural disasters which affects the ability to raise financing, title matters, metal prices, currency rate fluctuations, operating hazards encountered in the mining business, and changing legislation, regulations or the administration thereof. These risk factors could materially affect the Company's future operations and could cause actual events to differ materially from those described in forward-looking statements relating to the Company.

**HOMERUN RESOURCES INC.**  
**(formerly ENVIROTEK REMEDIATION INC.)**  
**Management's Discussion & Analysis**

For the Nine Months Ended September 30, 2022 and 2021

---

**Environmental and Other Regulatory Requirements**

Mineral exploration activities require permits from various governmental authorities and are and will be governed by laws and regulations governing prospecting, development, mining, production, exports, taxes, labour standards, occupational health, waste disposal, toxic substances, land use, environmental protection, safety and other matters. Companies engaged in the exploration and development of mineral properties generally experience increased costs, and delays as a result of the need to comply with applicable laws, regulations and permits. Failure to comply with applicable laws, regulations, and permitting requirements may result in enforcement actions, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions. Parties engaged in mineral exploration and development activities may be required to compensate those suffering loss or damage by reason of the mining activities and may have civil or criminal fines or penalties imposed for violations of applicable laws or regulations and, in particular, environmental laws.

The Company believes it is in compliance with all laws and regulations that currently apply to its activities. However, there can be no assurance that all permits which the Company may require for mineral exploration and development can be obtained or maintained on reasonable terms or that such laws and regulations would not have an adverse effect on any such mineral exploration or development which the Company might undertake.

Amendments to current laws, regulations and permits governing operations and activities of mining companies, or more stringent implementation thereof, could have a material adverse impact on the Company and cause increases in capital expenditures or production costs or reduction in levels of production at producing properties or require abandonment or delays in development of new mining properties.

**Metal Prices**

The principal activity of the Company is the exploration of resource metal properties. The feasible development of such properties is highly dependent upon metal prices. A sustained and substantial decline in commodity prices could result in the write-down, termination of exploration and development work or loss of the Company's interests in identified resource properties. Although such prices cannot be forecast with certainty, the Company carefully monitors factors that could affect metal prices in order to assess the feasibility of its resource properties.

**Industry and Economic Factors Affecting Performance**

As a mineral exploration and development company, The Company's performance is affected by a number of industry and economic factors and exposure to certain environmental risks and regulatory requirements. These include metal prices, competition amongst exploration firms for attractive mineral properties, the interest of investors in providing high-risk equity capital to exploration companies, and the availability of qualified staff and equipment such as drilling rigs to conduct exploration.

**Critical Accounting Estimates and Assumptions**

Critical accounting estimates are estimates and assumptions made by management that may result in material adjustments to the carrying amount of assets and liabilities within the next financial year.

**Share-based payments**

The Company uses the Black-Scholes pricing model to estimate the fair value of stock options granted and warrants issued. Under this model, the Company must estimate the term, volatility and if applicable, the forfeiture rate of options granted and warrants issued.

**HOMERUN RESOURCES INC.**  
**(formerly ENVIROTEK REMEDIATION INC.)**  
**Management's Discussion & Analysis**

For the Nine Months Ended September 30, 2022 and 2021

---

**Critical Accounting Judgments**

Critical accounting judgments are accounting policies that have been identified as being complex or involving subjective judgments or assessments.

**Exploration and Evaluation Assets**

The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumption made may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in the profit or loss in the period the new information become available.

**LEGAL MATTERS**

The Company is not currently and has not at any time during our most recently completed fiscal year, been party to, nor has any of its properties been the subject of, any material legal proceedings or regulatory actions.

**INTERNAL CONTROLS OVER FINANCIAL REPORTING**

Management is responsible for the design of the Company's internal controls over financial reporting ("ICFR") as required by National Instrument 52-109 – Certification of Disclosure in Issuers' Annual and Interim Filings ("NI 52-109"). ICFR is intended to provide reasonable assurance regarding the preparation and presentation of financial statements for external purposes in accordance with applicable generally accepted accounting principles. Internal control systems, no matter how well designed, have inherent limitations.

Based on a review of its internal control procedures at the end of the year covered by this MD&A, management has determined that the Company's internal controls over financial reporting have been effective to provide reasonable assurance regarding the reliability of financing reporting and the preparation of financial statements for external purposes in accordance with IFRS. There were no changes in the Company's internal controls over financial reporting that occurred during the period that have materially affected, or are reasonably likely to affect, our internal control over financial reporting.

However, even those systems determine to be effective can provide only reasonable assurance with respect to financial statement and preparation. A control system, no matter how well conceived or operated can provide only reasonable, not absolute, assurance and are not expected to prevent all errors and fraud.

**ADDITIONAL INFORMATION**

Additional information about the Company is available at the website of the System for Electronic Document Analysis and Retrieval ("SEDAR") at [www.sedar.com](http://www.sedar.com).

**APPROVAL**

The board of directors has approved the disclosure contained in this MD&A.

**CAUTIONARY NOTES FORWARD-LOOKING STATEMENTS**

This MD&A contains "forward-looking information" within the meaning of applicable Canadian securities legislation. Forward-looking information includes, but is not limited to, information with respect to the Company's future business plans and strategy, exploration plans, and environmental protection requirements. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects" (or "does not expect"), "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" (or "does not anticipate"), or "believes", and other similar words and phrases, or which states that certain actions, events, or results "may", "could", "might", or "will" occur. Forward-

looking information is subject to known and unknown risks and uncertainties that may cause the actual results, or performance of the Company to be materially different from those expressed or implied by such forward-looking information. These risks and uncertainties include risk and uncertainties associated with the mining industry and the exploration and development of mineral projects, such as the uncertainty of exploration results, the volatility of commodity prices, potential changes in government regulation, the uncertainty of potential title claims against the Company's projects, and the uncertainty of predicting operating and capital costs. They also include risks and uncertainties that affect the business environment generally, such as international political or economic developments, changes in interest rates and the condition of financial markets, and changes in exchange rates.

Forward-looking information is based on assumptions and expectations which the Company considers to be reasonable, and which are based on management's experience and its perception of trends, current conditions, and expected developments, as well as other factors that management believes to be relevant and reasonable in the circumstances at the date that such statements are made. Although the Company believes that the assumptions and expectations reflected in such forward-looking information are reasonable, undue reliance should not be placed on forward-looking information. The Company can give no assurance that forward-looking information, or the assumptions and expectations on which it is based, will prove to be correct. Homerun Resources does not undertake to revise or update any forward-looking information, except in accordance with applicable laws. Readers should not place undue reliance on forward looking information.
